Acknowledgments

I thank Natália Paiva for comments on earlier versions of this paper.

Statements and Declarations

Funding. This research was supported by the University of São Paulo through the Programa de Apoio a Novos Docentes (Support Program for Research by Newly Hired Professors), process number 22.1.09345.01.2.

Competing interests. The author has no relevant financial or non-financial interests to disclose.

Ethics approval. Not applicable. The study uses country-level observational data and publicly available documents and does not involve human participants or animals.

Data, materials, and code availability. An anonymized replication archive can be supplied during peer review. The final data and code availability statement, including a stable repository link, will be updated before publication.

Author contribution. The sole author was responsible for conceptualization, methodology, formal analysis, investigation, data curation, visualization, software, and writing.
