

MEDIA RELEASE

REVIEW OF 2013 TRADE PERFORMANCE¹

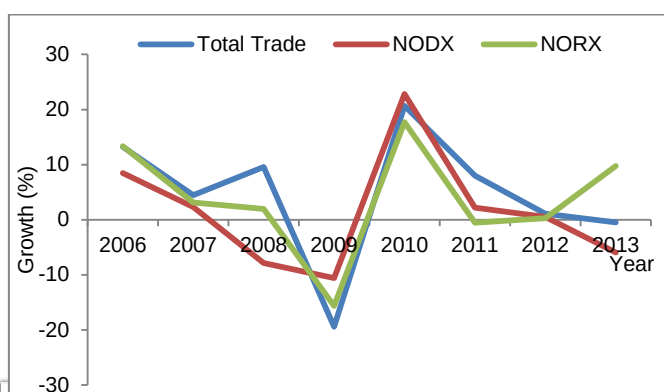

IMPORTANT: Unless otherwise stated, use of any information in this news release must be attributed to International Enterprise (IE) Singapore.

To be embargoed till 08:00 am on Thursday, 20 February 2014

MR No.: 005/14

Singapore, Thursday, 20 February 2014

Highlights

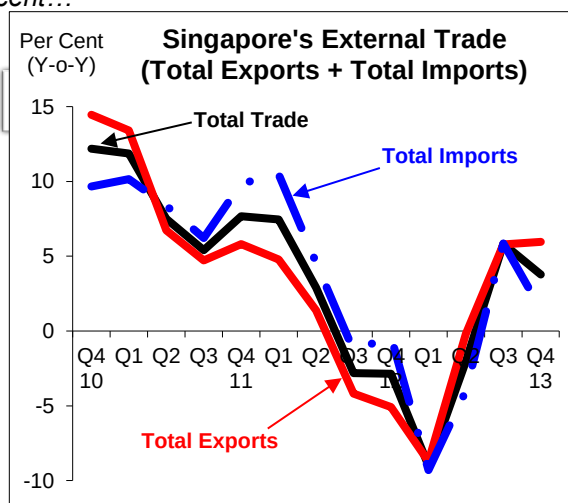

- Singapore's total trade declined by 0.5 per cent to reach S\$980.2 billion in 2013, after the 1.1 per cent increase in the previous year.
- Non-oil domestic exports (NODX) declined by 6.0 per cent in 2013, after a marginal 0.5 per cent rise in 2012.
- Non-oil re-exports (NORX) expanded by 9.8 per cent in 2013, compared to the preceding year's marginal increase of 0.3 per cent.
- Total trade and NODX forecasts for 2014 are maintained at between 1.0 and 3.0 per cent respectively.

¹ Effective February 2014, data regarding the European Union (EU) shall be reported as EU 28 instead of EU 27, to accommodate the recent accession of Croatia to the EU. All top products/countries which are stated to have contributed towards the changes in trade figures are ranked by absolute change in level and not change in percentage.

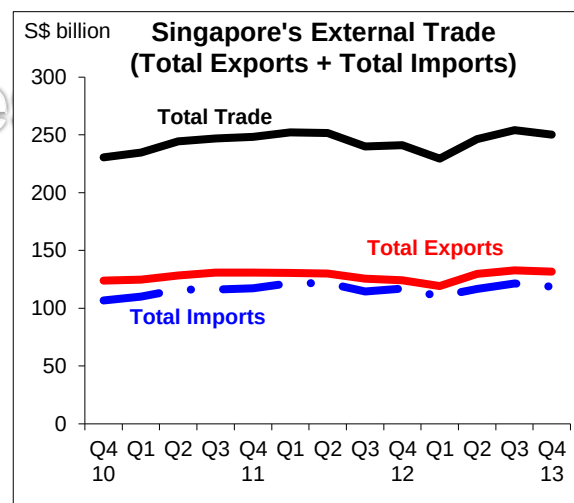

A. TOTAL TRADE

1. Singapore's total external trade declined by 0.5 per cent in 2013, in contrast to the 1.1 per cent increase in the previous year. Total trade reached S\$980.2 billion in 2013, lower than the previous year's achievement of S\$984.9 billion. Total exports expanded marginally by 0.6 per cent in 2013 while imports declined by 1.6 per cent in the same period.
2. Non-oil trade increased by 1.4 per cent in 2013, after a 1.7 per cent growth in the previous year. However, this was outweighed by the decline in oil trade which contracted by 5.1 per cent in 2013, following the decline of 0.4 per cent in the preceding year. Details on the performance of major trade components and key trading markets can be found in Annexes A, B, C and D.
3. The decline in trade fell short of our previously projected forecast range of between 1.0 and 2.0 per cent².
4. On a year-on-year (y-o-y) basis, Singapore's total trade grew by 3.8 per cent in 4Q 2013, following an expansion of 5.8 per cent in the previous quarter. Total trade's y-o-y rise in 4Q 2013 can be attributed to increase in non-oil trade which outweighed the decline in oil trade. Oil trade declined by 1.1 per cent in 4Q 2013, after the previous quarter's rise of 10.9 per cent. Non-oil trade grew by 5.7 per cent in 4Q 2013, following the previous quarter's increase of 4.0 per cent.
5. On a quarter-on-quarter (q-o-q) seasonally adjusted (SA) basis, total external trade declined by 1.0 per cent in 4Q 2013 after the previous quarter's rise of 1.7 per cent.

Singapore's external trade rose y-o-y by 3.8 per cent...

...to reach S\$250.2 billion in 4Q 2013

² As a result of the earlier downward revisions in the September and October 2013's trade data, total trade has come in lower than expected.

B. NON-OIL EXPORTS

6. Non-oil exports (NOX), which includes both NODX and NORX, increased by 2.4 per cent in 2013, after the preceding year's marginal 0.4 per cent rise. On a y-o-y basis, NOX expanded by 8.0 per cent in 4Q 2013, following the previous quarter's rise of 4.4 per cent. On a q-o-q SA basis, NOX expanded by 1.9 per cent in 4Q 2013, compared to the 1.8 per cent decline in 3Q 2013.

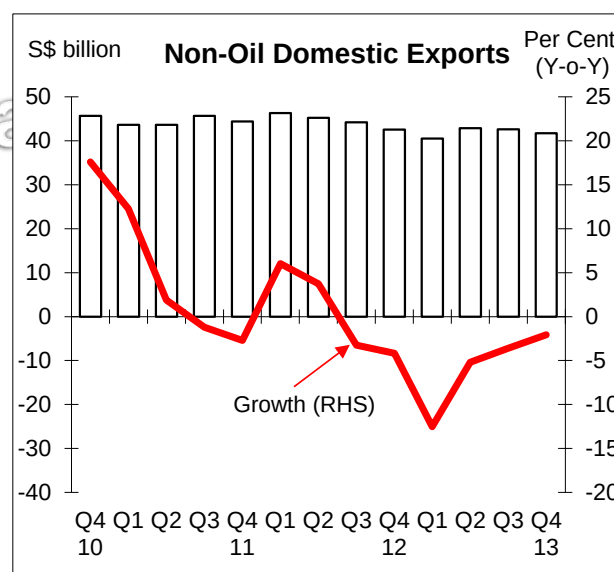

C. NON-OIL DOMESTIC EXPORTS

7. NODX contracted by 6.0 per cent in 2013, after the preceding year's marginal increase of 0.5 per cent, due to lower exports of both electronic and non-electronic NODX. The NODX decrease of 6.0 per cent in 2013 was lower than our projected 2013 growth of -5.0 to -4.0 per cent³.

8. Electronic NODX declined by 11.3 per cent in 2013, following the 4.1 per cent contraction in the previous year. Non-electronic NODX decreased by 3.3 per cent in 2013, after expanding by 3.0 per cent in 2012.

9. On a y-o-y basis, NODX contracted by 2.1 per cent in 4Q 2013, compared to the previous quarter's decline of 3.6 per cent, on lower shipments of electronic NODX which outweighed the rise in non-electronic NODX. Electronic domestic exports decreased by 6.9 per cent in 4Q 2013, after the previous quarter's 8.9 per cent decline. Non-electronic NODX rose by 0.3 per cent in 4Q 2013, in contrast to the 1.0 per cent contraction in the previous quarter.

NODX declined by 2.1 per cent in 4Q 2013

³ As a result of the earlier downward revisions in the September and October 2013's trade data, NODX has come in lower than expected.

10. On a q-o-q SA basis, NODX declined by 0.7 per cent in 4Q 2013, following the 2.1 per cent decrease in 3Q 2013, on lower shipments of electronic NODX which outweighed the expansion in non-electronic NODX. Electronic domestic exports contracted on a q-o-q SA basis by 3.6 per cent in 4Q 2013, after the previous quarter's 4.5 per cent decline. Non-electronic NODX grew by 0.7 per cent in 4Q 2013, after the 0.9 per cent decrease in the previous quarter.

Products

Electronic Products

11. Domestic exports of electronic products (comprising 31.7 per cent of NODX) declined by 11.3 per cent in 2013, after the previous year's decrease of 4.1 per cent. The contraction in electronic NODX was largely contributed by parts of PCs (-26.5 per cent), ICs (-10.0 per cent) and disk media products (-32.9 per cent) (See Annex E).

12. On a y-o-y basis, domestic exports of electronic products contracted by 6.9 per cent in 4Q 2013, following the decline of 8.9 per cent in the previous quarter. The decrease in electronic NODX can be attributed to lower domestic exports of disk media products (-29.3 per cent), parts of PCs (-17.8 per cent) and non-monetary gold (-49.8 per cent).

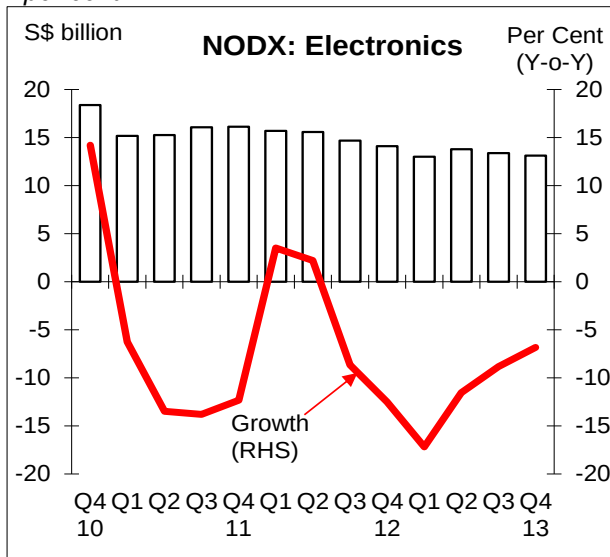

Non-Electronic Products

13. Domestic exports of non-electronic products (comprising 68.3 per cent of NODX) contracted by 3.3 per cent in 2013, after the previous year's increase of 3.0 per cent. The decline in non-electronic NODX was largely contributed by pharmaceuticals (-26.8 per cent), structures of ships & boats (-64.9 per cent) and specialised machinery (-15.4 per cent) (See Annex E).

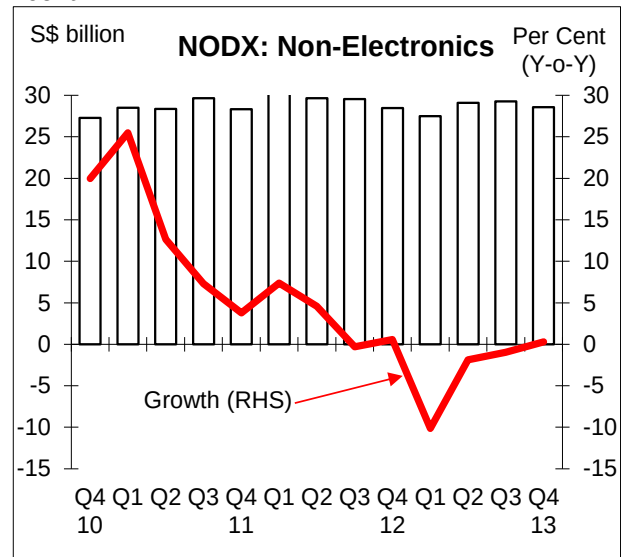

14. On a y-o-y basis, non-electronic NODX expanded by 0.3 per cent in 4Q 2013, compared to the previous quarter's decline of 1.0 per cent. The increase in non-electronic NODX can be attributed to higher domestic exports of petrochemicals (+30.3 per cent), printed matter (+72.0 per cent) and prefabricated buildings (+3,987.1 per cent).

Unless otherwise stated, use of any information in this news release must be attributed to IE Singapore

In 4Q 2013, electronic NODX decreased by 6.9 per cent...

... while non-electronic NODX rose by 0.3 per cent

Markets

15. NODX to all top markets, except China and Taiwan, declined in 2013. The biggest contributors to the contraction in 2013 were the EU 28 (-25.5 per cent), South Korea (-25.3 per cent) and Malaysia (-9.8 per cent).

Non-oil Domestic Exports to Top Markets (% Growth)

Top Market	NODX		Electronic NODX		Non-Electronic NODX	
	2012	2013	2012	2013	2012	2013
EU 28	-3.8%	-25.5%	-20.4%	-20.3%	3.0%	-27.1%
South Korea	12.0%	-25.3%	-8.3%	-11.5%	22.0%	-30.5%
Malaysia	-6.0%	-9.8%	-11.8%	-21.3%	-2.3%	-3.2%
US	-1.1%	-6.6%	-17.7%	-14.3%	11.7%	-2.2%
Japan	2.2%	-9.7%	-1.6%	-22.7%	5.4%	0.7%
Indonesia	6.3%	-7.6%	23.1%	-39.8%	2.6%	0.8%
Hong Kong	11.6%	-5.3%	7.6%	-10.6%	18.7%	3.3%
Thailand	7.5%	-6.7%	0.7%	10.0%	11.0%	-14.4%
Taiwan	8.7%	1.0%	4.5%	3.0%	14.6%	-1.7%
China	2.2%	11.8%	5.8%	1.0%	0.1%	18.5%

16. Electronic NODX to the EU 28, Japan, Hong Kong, Malaysia, Indonesia, the US and South Korea declined in 2013. The biggest contributors to the electronic NODX decline were the EU 28 (-20.3 per cent), Japan (-22.7 per cent) and Hong Kong (-10.6 per cent). Top three products contributing to the decrease in electronic NODX for each relevant top market are provided in the table below.

**Top Products Contributing to the Decrease in Electronic NODX to Top Markets
(% Growth)**

Top Market	Top Products Contributing to the Decrease in Electronic NODX					
	Top Product	2013 (% Growth)	Second Product	2013 (% Growth)	Third Product	2013 (% Growth)
EU 28	ICs	-31.4	Diodes & Transistors	-51.7	Parts of PCs	-25.6
Japan	Disk Media Products	-51.5	ICs	-22.2	Parts of PCs	-35.8
Hong Kong	ICs	-25.2	Telecommunications Equipment	-65.5	Parts of PCs	-21.0
Malaysia	ICs	-29.2	Parts of PCs	-18.0	Consumer Electronics	-38.8
Indonesia	Telecommunications Equipment	-83.4	Parts of PCs	-29.4	PCs	-41.7
US	Parts of PCs	-29.3	ICs	-12.7	Disk Drives	-28.1
South Korea	ICs	-22.9	Parts of PCs	-40.1	Other Computer Peripherals	-62.9

17. Non-electronic NODX to the EU 28, South Korea, Thailand, Malaysia, the US and Taiwan contracted in 2013. The biggest contributors to the decrease in non-electronic NODX were the EU 28 (-27.1 per cent), South Korea (-30.5 per cent) and Thailand (-14.4 per cent). Top three products contributing to the decline in non-electronic NODX for each relevant top market are provided in the table below.

**Top Products Contributing to the Decline in Non-Electronic NODX to Top Markets
(% Growth)**

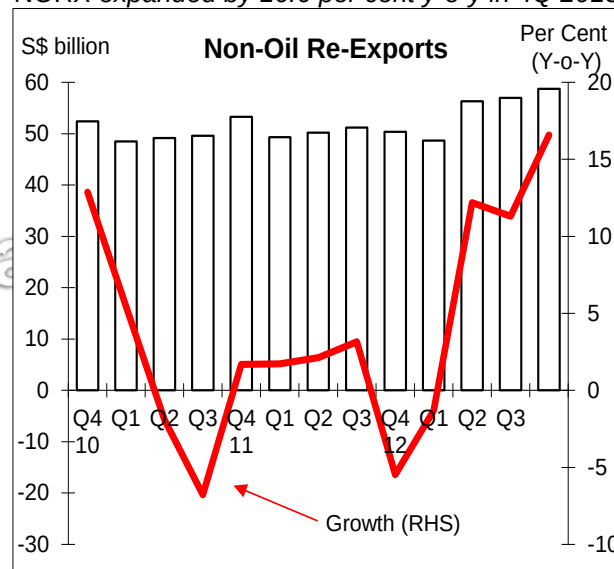

Top Market	Top Products Contributing to the Decline in Non-Electronic NODX					
	Top Product	2013 (% Growth)	Second Product	2013 (% Growth)	Third Product	2013 (% Growth)
EU 28	Pharmaceuticals	-41.2	Articles of Plastic	-57.4	Printed Matter	-70.4
South Korea	Specialised Machinery	-57.9	Parts of Motor Vehicles & Tractors	-76.8	Other Specialty Chemicals	-43.0
Thailand	Electrical Machinery	-71.1	Electrical Circuit Apparatus	-57.4	Specialised Machinery	-41.3
Malaysia	Non-Monetary Gold	-30.6	Watches & Clocks	-57.2	Specialised Machinery	-28.6
US	Structures of Ships & Boats	-76.1	Articles of Plastic	-54.9	Civil Engineering Equipment Parts	-66.0
Taiwan	Other Specialty Chemicals	-46.7	Metalworking Machinery	-85.9	Glass	-76.6

D. NON-OIL RE-EXPORTS

18. NORX expanded by 9.8 per cent in 2013, after a marginal rise of 0.3 per cent in the previous year. Electronic re-exports increased by 13.4 per cent in 2013, in contrast to the previous year's contraction of 1.8 per cent, on higher re-exports of ICs (+18.3 per cent), telecommunications equipment (+14.9 per cent) and parts of ICs (+45.6 per cent). Non-electronic NORX grew by 6.1 per cent in 2013, following the preceding year's increase of 2.4 per cent, on higher re-exports of non-electric engines & motors (+49.0 per cent), jewellery (+50.2 per cent) and structures of ships & boats (+131.4 per cent). Details on the performance of key NORX markets can be found in Annex G.

19. On a y-o-y basis, NORX expanded by 16.6 per cent in 4Q 2013, following the 11.3 per cent increase in the previous quarter. The y-o-y rise in NORX can be attributed to higher shipments of both electronic and non-electronic NORX. Electronic NORX grew by 17.3 per cent in 4Q 2013, after the previous quarter's rise of 19.4 per cent. The increase in electronic NORX was due to higher re-exports of ICs (+18.8 per cent), parts of ICs (+81.7 per cent) and parts of PCs (+13.6 per cent). Non-electronic NORX grew by 15.8 per cent in 4Q 2013, after the previous quarter's rise of 3.5 per cent. The expansion in non-electronic NORX was due to higher re-exports of non-electric engines & motors (+105.8 per cent), jewellery (+88.7 per cent) and precious stones & pearls (+236.8 per cent).

NORX expanded by 16.6 per cent y-o-y in 4Q 2013

20. On a q-o-q SA basis, NORX grew by 3.8 per cent in 4Q 2013, after the previous quarter's decline of 1.5 per cent. Electronic re-exports grew on a q-o-q SA basis by 2.5 per cent in 4Q 2013, reversing the previous quarter's 0.2 per cent decrease. Non-electronic NORX rose by 5.2 per cent in 4Q 2013, after the 3.0 per cent decrease in the previous quarter.

E. OIL DOMESTIC EXPORTS

21. Oil domestic exports declined marginally by 0.3 per cent in 2013, after the 2.8 per cent expansion in the previous year. The decrease in oil domestic exports was due to lower shipments of oil to the EU 28 (-17.4 per cent), China (-14.3 per cent) and Australia (-4.7 per cent). In volume terms, oil domestic exports rose by 5.4 per cent in 2013, after posting a marginal growth of 0.4 per cent in 2012 (See Annex F).

22. On a y-o-y basis, oil domestic exports rose by 1.8 per cent in 4Q 2013, following the growth of 17.9 per cent in the previous quarter. In volume terms, oil domestic exports expanded by 2.6 per cent in 4Q 2013, after the growth of 21.3 per cent in the previous quarter. On a q-o-q SA basis, oil domestic exports contracted by 6.9 per cent in 4Q 2013, after the rise of 14.1 per cent in the previous quarter.

F. OIL RE-EXPORTS

23. Oil re-exports contracted by 23.3 per cent in 2013, after the 26.6 per cent decrease in the previous year. The decline in oil re-exports was mainly due to Indonesia (-29.1 per cent), Viet Nam (-63.6 per cent) and Malaysia (-21.0 per cent). In volume terms, oil re-exports contracted by 19.3 per cent in 2013, compared to the previous year's decrease of 29.1 per cent.

24. On a y-o-y basis, oil re-exports declined by 10.9 per cent in 4Q 2013, after decreasing by 23.2 per cent in 3Q 2013. In volume terms, oil re-exports contracted by 12.2 per cent in 4Q 2013, after the 22.9 per cent decline in 3Q 2013. On a q-o-q SA basis, oil re-exports rose by 0.7 per cent in 4Q 2013, in contrast to the previous quarter's decrease of 18.4 per cent.

G. OUTLOOK FOR 2014

25. Global macroeconomic conditions are expected to show modest improvement in 2014. This is supported by sustained, albeit slow, recovery in the advanced economies like the US and Eurozone. However, there are some key uncertainties in the global macroeconomic environment such as the pace of QE tapering in the US and the on-going restructuring of China's economy. Taking all these into consideration, the projections for both total trade and NODX are maintained at between 1.0 and 3.0 per cent in 2014.

About International Enterprise Singapore

International Enterprise (IE) Singapore is the government agency driving Singapore's external economy. We spearhead the overseas growth of Singapore-based companies and promote international trade. Our vision is a thriving business hub in Singapore with Globally Competitive Companies and leading international traders.

IE Singapore attracts global commodities traders to establish their global or Asian home base in Singapore. Today, Singapore is a thriving trading hub with a complete ecosystem for the energy, agri-commodities and metals & minerals trading clusters.

Through our Global Company Partnership and Market Readiness Assistance, we also work with Singapore-based companies in their various stages of growth towards being globally competitive.

Our global network of overseas centres in over 35 locations provides the necessary connections in many developed and emerging markets. Visit www.iesingapore.com for more information.
